School Profile Statement

Avenues Education is a South East Victoria Region (SEVR) outreach government school that works in partnership with Child Youth Mental Health Services (CYMHS). CYMHS refer students to Avenues Education to provide targeted educational services for individual and groups of students experiencing social, emotional, and/or mental health difficulties in accessing education. Students participating in Avenues Education retain enrolment in their school of origin. Depending on the program and individual health needs, students undertake sessions with Avenues Education either at their school of origin or at Avenues Education locations.

Purpose

To ensure the school community understands our school's approach to first aid for students.

Scope

This policy applies to first aid needs of students seen at our Alfred and Eastern Child and Youth Mental Health Service locations. At our outreach education program locations, we have a shared duty of care with the Alfred and Eastern Health Child and Youth Mental Health Services where first aid is managed by the respective health authority.

First aid for anaphylaxis and asthma are provided for in our school's:

- *Anaphylaxis Policy*
- *Asthma Policy*

Policy

From time to time Avenues Education staff might need to administer first aid to students at school or school activities.

Parents/carers should be aware that the goal of first aid is not to diagnose or treat a condition.

Staffing

The Principal will ensure that Avenues Education has sufficient staff with the appropriate levels of first aid training to meet the first aid needs of the school community.

All of our staff are trained first aid officers and this is listed in our Emergency Management Plan (EMP) and on our First Aid Register. Our EMP and register includes the expiry dates of the training. These documents are reviewed on an annual basis.

First aid kits

Avenues Education will maintain:

- A major first aid kit which will be stored in the Alfred CYMHS Teachers' Office. There is another major first aid kit stored in the administration office at the EH CYMHS Brown House campus for staff use.

- Avenues Education has two portable first aid kits which may be used for excursions. The portable first aid kits will be stored in the:
 - Alfred CYMHS Teachers' Office
 - EH CYMHS Brown House Administration Office
- First Aid Kits for the EH CYMHS AIPU and EH CYMHS Groupwork programs are supplied and maintained by Eastern Health.

The First Aid Officers (Business Manager & Administration Assistant) will be responsible for maintaining all first aid kits.

Care for ill students

Students who are unwell should not attend our school campus.

If a student becomes unwell whilst onsite, staff will contact parents/carers or an emergency contact person to ask them to collect the student.

First aid management

If there is a situation or incident which occurs at school or a school activity which requires first aid to be administered to a student:

- Staff who have been trained in first aid will administer first aid in accordance with their training. In an emergency situation, other staff may assist in the administration of first aid within their level of competence.
- In a medical emergency, staff may take emergency action and do not need to obtain parent/carer consent to do so. Staff may contact Triple Zero "000" for emergency medical services at any time.
- Staff may also contact NURSE-ON-CALL (on 1300 60 60 24) in an emergency. NURSE-ON-CALL provides immediate, expert health advice from a registered nurse and is available 24 hours a day, 7 days a week.
- If first aid is administered for a minor injury or condition, Avenues Education will notify parents/carers by phone call.
- If first aid is administered for a serious injury or condition, or in an emergency situation, school staff will attempt to contact parents/carers or emergency contacts as soon as reasonably practical.
- If staff providing first aid determine that an emergency response is not required but that medical advice is needed, school staff will ask parents/carers, or an emergency contact person, to collect the student and recommend that advice is sought from a medical practitioner.
- Whenever first aid treatment has been administered to a student Avenues Education will:
 - record the incident on the student's COMPASS profile.
 - if first aid was administered in a medical emergency, follow the Department's [Reporting and Managing School Incidents Policy](#), including reporting the incident to the Department's Incident Support and Operations Centre on 1800 126 126.

In accordance with guidance from the Department of Education and Training, analgesics, including paracetamol and aspirin, will not be stored at school or provided as a standard first aid treatment. This is because they can mask signs of serious illness or injury.

Communication

This policy will be communicated to our school community in the following ways:

- Available publicly on our school's website
- Included in staff induction processes
- Included in staff handbook / manual
